This form is intended for the registration of a customer account on the RATP website.
This form is use for the RATP to know how much people are using the website regularly and also how much people are using public transports serviced by the RATP everyday.
By giving their email address, customers will receive news of the traffic in real time by email and will have an account on the application and on the website.
Which will allow them to access to their travel habits more easily.

It contains the gender, the name, the email address and a password.
The confirmation of the email address and the password are required, such as the acceptation of the terms and conditions.
